ELSEVIER

Journal of Economics and Business 53 (2001) 615

Journal of Economics & Business

Volume 53 Title Index

Absenteeism, seasonality, and the business cycle, 405–419

The bond rate and estimated monetary policy rules, 345–358

Competition, herd behavior, and credit cycles: evidence from major Swiss Banks, 585–592

Credit risk and the deposit insurance premium: a note, 497–508

Deregulating and privatizing statutory monopolies, 111–137

Deregulation and efficiency: the case of private Korean banks, 237–254

Deregulation in retailing: the Dutch experience, 225–235

Do depositors care about enforcement actions? 283–311

Effects of interest rate swaps, 547–562

Efficient risk-taking and regulatory covenant enforcement in a deregulated banking industry, 255–282

An examination of predictable risk and return in UK stock returns, 527–546

An examination of the performance of SEOs using a comparison period approach, 359–386

Foreign exchange derivatives, exchange rate changes and the value of the firm: U.S. multinationals' use of short-term financial instruments to manage currency risk, 421–437

Foreign exchange rates and Japanese foreign direct investment in Asia, 69–84

Governmental versus self-regulation of derivative markets: examining the U.S. and Brazilian experience, 185–207

The home field advantage revisited: a search for the bias in other sports betting markets, 439–453

Implementing and interpreting event studies of regulatory changes, 171–183

Incumbent and entrant response to regulated competition: signaling with accounting costs and market prices, 209–223

Interpreting cross-section and time-series tests of convergence: the case of labor productivity in manufacturing, 593–607

Introduction: Deregulation: theory and practice, 107–109

The long and short of money and prices: a market equilibrium approach, 563–583

Looking back at forward-looking monetary policy, 509–521

Macro shocks and real stock prices, 5–26

Market discipline prior to bank failure, 313–324

Market share instability: an application of unit root tests to the cigarette industry, 473–480

Minimum wages and information, 153–170

On human capital externalities and aggregate fluctuations, 459–472

The parallel market as a policy instrument in collapsing exchange rate regimes, 27–43

Rules and discretion with common central bank and separate fiscal authorities, 45–68

Small bank loan quality in a deregulated environment: the information advantage hypothesis, 325–339

The social cost of entry contest in Cournot-Nash oligopoly, 139–152

Sweep accounts, reserve management, and interest rate volatility, 387–404

To build or buy: an empirical study of the characteristics affecting a bank's expansion decisions, 481–495

Trend-stationarity, difference-stationarity, or neither: further diagnostic tests with an application to US real GNP, 1875–1993, 85–102
